EDUCATION

BS Engineering/Math/Science Core Curriculum 2009
Major – Human Geography
United States Military Academy
West Point, New York

CERTIFICATES: Six Sigma Green Belt Certified

Skills: Leadership, Communication, Self-Motivated, Risk Management, Outlook, SAP, Excel, Excellent Multitasker, Highly Driven and Results orientated

Koch Industries, INVISTA Corporation, Victoria Texas – 01/15 - Present

03/16-Present First Line Supervisor: Responsible for unit Safety, Environmental, and Production goals in support of the Adipic Acid business and Powerhouse within a petrochemical plant.

- Responsible for 19 direct reports ensuring all work assignments and training is completed.
- Responsible for all daily maintenance activities scheduled for that day as well as any emergency work.
- Responsible for all day to day operations concerning the production of Adipic Acid within the intermediates plant from cyclohexanol oxidation through the shipment of the final product, adipic acid, by rail car.
- Responsible for all day to day operations for the Adipic Acid powerhouse consisting of four boilers, a Cogeneration unit, a plant air facility, and an Ammonia Oxidation plant.
- Manage and track quantifiable matrices to effectively gauge the effectiveness of the shift.

01/15-03/16 Project Manager: Custodian of all assigned projects from inception to completion. Managed projects per site Project Work Process as well as all applicable internal and external engineering, environmental, and construction standards and procedures. Provided technical expertise and managerial skills in managing the execution of assigned projects.

- Successfully managed as many as twelve projects at one time valued collectively at over \$20 million
- Oversaw project safety, quality, and installation requirements while executing work in accordance with INVISTA policies, procedures, and systems.
- Maintained active communication interfaces with leadership for progress, commitments, and change management.

United States Army, Field Artillery Officer, 05/09 – 01/15:

10/12-01/15 Brigade Fire Control Officer: Managed digital fires architecture for 4 fire support organizations within 500-person Brigade. Maintained connectivity with all higher elements and headquarters and ensured all fires plans were synchronized and being effectively executed across 18,000-person Division.

- Led 7-person team developing/implementing standardized certification program for newly established armored Division Artillery; ensured safe execution of artillery fires; program used as framework for other Divisions.
- Aided in transitioning from Fires Brigade to Division Artillery; synchronized input from across unit and incorporated into new operating procedures; enabled systematic influx of new units into Division Artillery.
- Directed risk management program as Brigade Safety Officer; ensured 8 of 8 units met or exceeded Army and Occupational Safety and Health Administration (OSHA) standards; led to very few even minor incidents in unit.

3/12-10/12 Squadron Fire Support Officer: Led 8-person fire support cell planning, coordinating, and executing fire support and air asset integration in support of 90-person squadron. Advised commander and 30-person staff on fire support and air integration. Supervised fire support cell functions and personnel moves.

- Trained and managed 3 fire support teams totaling 12 people, 3 mortar sections totaling 24 people, and 8-person squadron fires cell; certified all sections with accolades for mortar section accuracy and efficiency.

3/11-3/12 Personal Security Detachment Platoon Leader: Led 18-person team with mission of escorting and protecting commander of 500-person battalion while forward deployed to Iraq. Planned and resourced 80 missions. Scheduled and coordinated over 50 meetings with host nation and interagency partners. Ensured health and welfare of 4 interpreters and maintained/employed 11 vehicles valued at over \$6 million.

- Led team executing daily combat patrols in urban and rural environments with battalion commander and Iraqi security force leaders; led to multiple arrests; provided more secure environment for over 400,000 locals.
- Lauded by commander as “in top 4 of 19 lieutenants” and in “top 5%” seen in 22 years; earned Bronze Star.

5/09-3/11 Fires Platoon Leader/Fire Direction Officer: Led 35-person fires platoon delivering indirect fires in support of 4,500-person Brigade. Maintained and accounted for over \$10 million of vehicles and equipment.

- Trained/led 10-person Fire Direction Center (FDC); developed training plan that ensured team could safely compute and deliver accurate indirect fires in preparation for certification; earned “Best FDC” out of 4.
 - Planned and managed logistics as battery movement officer to successfully deploy and redeploy 4 shipping containers with over \$20 million of equipment 1,400 miles from KS to CA and back with no losses.
-
