West Herts Hospital Trusts Coproduction Board

West Herts Hospital Trust is setting up a Co-production Board to manage a high level programme of co-production across the Trust. The programme will enhance opportunities for patients, voluntary sector organisations and clinicians to work together to improve services.

The Trust is keen to recruit Voluntary and Community Sectors with their coproduction work and available opportunities include:

- **Board membership as one of the voluntary sector representatives**
Board members will use own networks to recruit participants, patients or carers for projects/work and will also be asked to disseminate information to various groups and peer support groups, establishing strong network links which connect to the community
- **Involvement in task and finish groups**
These will be set up if to take forward projects agreed by the board. Membership of task and finish groups will vary to meet the focus of the work but will work co-productively
- **Potential involvement with a broader forum**
This is being set up to help to set the Board's agenda in future years

The Trust is working with Healthwatch Hertfordshire on coproduction to ensure opportunities for patient involvement. If you are interested in any of the above opportunities or would like further information, please contact Geoff Brown Chief Executive at Healthwatch Hertfordshire on 01707 275978 or by email to geoff.brown@healthwatchhertfordshire.co.uk
