

**Application for Forum Membership of the
Agroecology Transformative Partnership Platform (TPP)**

The TPP has three levels of membership:

1. **Partners** are organisations that are formally engaged in Agroecology TPP projects (either integrated or aligned) and are active in the AE-TPP science-policy or development interface. Member organisations of the Agroecology TPP governance and advisory bodies are also automatically partners.
2. **Forum Members** are organisations that have not entered into formal arrangements with the TPP but who are willing to support the application of the HPLE agroecological principles to transform food systems and the modalities outlined in the Membership Charter and TPP Concept note. They have also identified how their organisations can add-value to the TPP and how the TPP can add-value to their organisations. Forum Members can participate in an annual Members Forum event where they have the opportunity to participate in discussions and contribute their perspectives on TPP priorities.
3. **Individual CoP participants** are people who join the GLFx Agroecology TPP Community of Practice (CoP) at:
<https://glfx.globallandscapesforum.org/topics/21467/page/TPP-home>, where they can keep up to date with TPP activities and interact with others engaged with the TPP.

In order to apply for an organisation to become a Forum Member of the TPP, please complete the fields below and submit to the TPP secretariat¹. Completed applications will be considered for approval by the TPP and the outcome of the decision will be communicated after the next Steering Committee meeting (normally held bimonthly).
