*Bridging Healthcare
And Community*

Charles Normand

Out of pocket payments cause hardship and do not work as an efficient way to ration access to care

Systems with Strong Financial Protection
Protect well against unmet needs and impoverishment

Natasha Azzopardi Muscat

**Financial hardship is driven by out-of-pocket payments
for treatment in primary care**

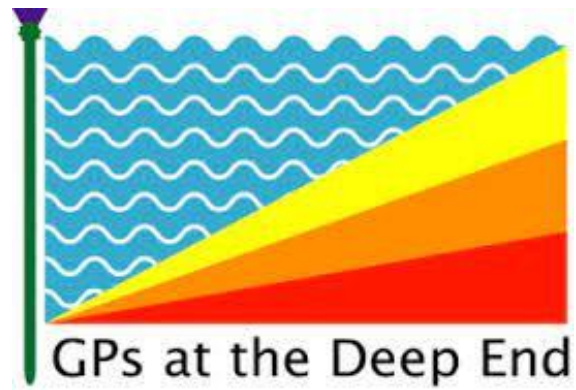

PHC moving forward

Investing in and protecting the PHC workforce

Engage proactively with the high-risk and vulnerable

David Blane

empathy and connection

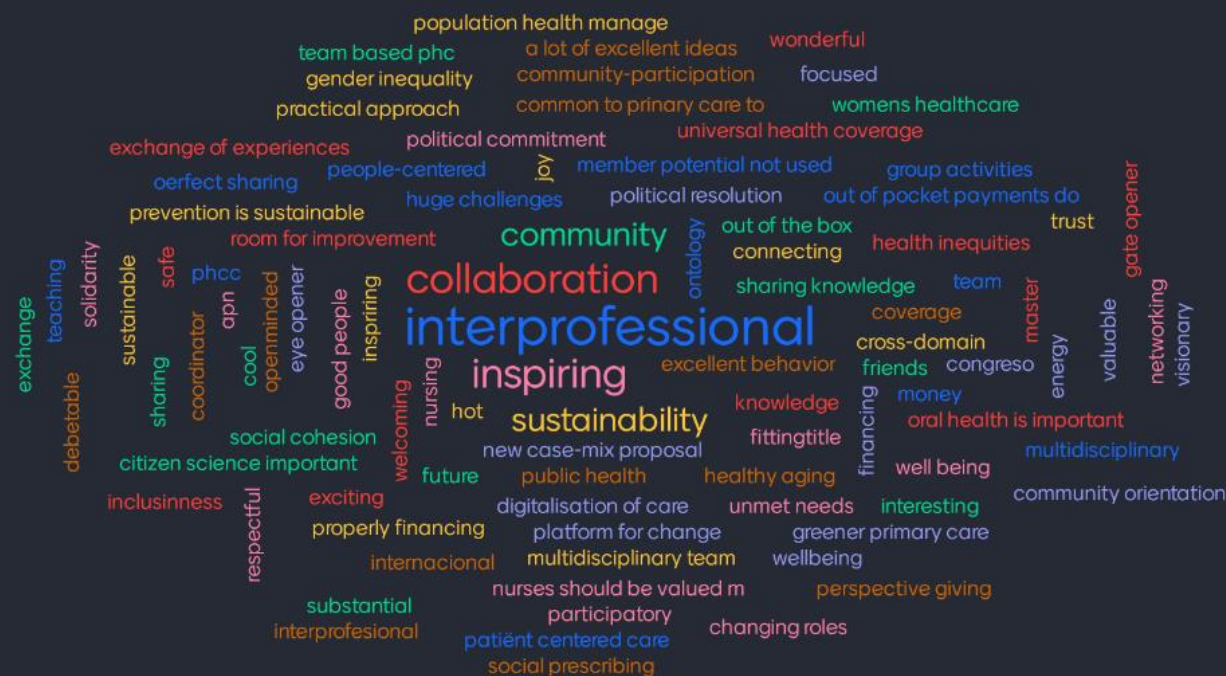

relation continuity of care saves lives

address "missingness" in healthcare

The inverse care law (Tudor Hart)

Solidarity

YOUR Impressions

Person centred Community Oriented integrated Primary Care

Goal, not disease oriented
Needs & values driven,
Engaging patient and
community

Better health outcomes
More Equity
Lower costs

Ahmed A et al (2022). Person-centred care in primary care: What works for whom, how and in what circumstances? Health & Social Care in the Community
