

KBA Datasheet

This sheet shows you the data we have on this KBA and explains what additional information is needed about the site.

Please submit any information using the KBA response sheet (separate download), and send it to gfw.cep.update@gmail.com

Country:	Cameroon
KBA name:	Lake Barombi Mbo and surrounding catchments
KBA number:	500001
KBA status:	Proposed

1. Species at the KBA

Data needed: confirmation of the presence of species listed here, and estimates of abundance, such as survey/count/census results – please enter any information on a KBA response sheet

- No species data is available for this KBA
- Modelling of range and habitat shows that these species might occur in significant numbers. Data is needed to confirm their presence and population/abundance:

ACTINOPTERYGII
Amphilius korupi
Aphyosemion bivittatum
Aphyosemion celiae
Aphyosemion poliaki
Aphyosemion volcanum
Benitochromis conjunctus
Benitochromis finleyi
Benitochromis nigrodorsalis
Benitochromis ufermanni
Chromidotilapia linkei
Clarias maclareni

Coptodon kottae
Enteromius thysi
Fundulopanchax amieti
Fundulopanchax cinnamomeus
Fundulopanchax fallax
Fundulopanchax marmoratus
Fundulopanchax robertsoni
Fundulopanchax rubrolabialis
Konia dikume
Konia eisentrauti

Myaka myaka
Parauchenoglanis ahli
Sarotherodon caroli
Sarotherodon linnellii
Sarotherodon lohbergeri
Sarotherodon steinbachi
Stomatepia mariae
Stomatepia mongo
Stomatepia pindu
Synodontis marmoratus
Tylochromis trewavasae

AMPHIBIA
Alexteroon jynx
Amnirana asperrima
Astylosternus perreti
Cardioglossa melanogaster
Cardioglossa venusta

Conraua robusta
Didynamipus sjostedti
Leptodactylodon bicolor
Petropedetes euskircheni
Petropedetes juliawurstnerae

Petropedetes newtonii
Phrynobatrachus cricogaster
Werneria tandyi
Wolterstorffina parvipalmata

AVES
Calidris ferruginea
Calidris minuta

Ceratogymna elata
Kupeornis gilberti
Malaconotus gladiator

Phyllastrephus poliocephalus
Poliolais lopezi

Psalidoprocne fuliginosa	Tringa erythropus	Zosterops melanocephalus
GASTROPODA	MALACOSTRACA	MAGNOLIOPSIDA
Neritilia manoeli	Caridina evae	Ledermanniella batangensis
	Caridina sodenensis	Ledermanniella linearifolia
INSECTA	Potamonemus asylos	Ledermanniella thalloidea
Allocnemis eisentrauti		Macropodiella heteromorpha
Microgomphus camerunensis	LILIOPSIDA	Macropodiella pellucida
Pantecphylus kamerunus	Angraecum pungens	
	Bulbostylis erratica	
	Luzula mannii	
MAMMALIA	Genetta cristata	Myosorex rumpii
Allochrocebus preussi	Hipposideros curtus	Otomys burtoni
Cercocebus torquatus	Hybomys badius	Paraxerus cooperi
Cercopithecus erythrotis	Hypsugo eisentrauti	Praomys morio
Crocidura eisentrauti	Lophuromys roseveari	Sylvisorex morio
Dendromus oreas	Mandrillus leucophaeus	
REPTILIA	Lacertaspis gemmiventris	Trioceros quadricornis
Hemidactylus pseudomuriceus	Leptosiaphos vigintiserierum	Urocotyledon weileri
Kinixys homeana	Trioceros montium	

2. KBA Boundary

Data needed: Information on issues with the boundary, or new information to help improve delineation of the boundary – please enter any information on a KBA response sheet

- No boundary assessment is available for this KBA

3. Land use change

Data needed: data on changes in important habitats and land use at the KBA – please enter any information on a KBA response sheet

- This KBA lost 52.3 km² of forest (3.7% of forest cover) between 2014 and 2023.

4. Threats

Data needed: information on threats which are affecting the important habitats and species at the KBA – please enter any information on a KBA response sheet

- No data on threats is available for this KBA
