

## **Want to expand your business into European markets? Start with Poland!**

Our mission is to empower young tech companies by creating an environment conducive to their business growth in Poland.

Our program provides:

- Up to €95,000 grant – equity free.
- "Soft-landing" support – full business and legal assistance for entering the Polish market.
- Mentors and experts – access to the knowledge and experience of key players in the Polish startup ecosystem.
- Key to the market – help with entering a large market of over 38 million people in the heart of Europe.

Deadline for applications is November 15th, 2025.

### **Concordia Design Accelerator – who are we:**

We are a unique accelerator located in Poland's technological capital - Wrocław. Through our experience and unique know-how, we enable startups to reach a new level. Concordia Design Accelerator works with Polish and international innovators. We connect them with global companies, Polish champions, credible investment funds, and local governments.

Our goal? To accelerate projects that would positively impact on people's life.

+70 startups | +30 million PLN in grants | +60 Polish and international Partners | +20 Mentors

Does your startup have huge potential, but you're looking for the capital and support to enter a new market? The Poland Prize program is your chance!

## Concordia Design Accelerator

Concordia Design Ltd. has received funding from the European Funds for a Modern Economy program for a project titled Concordia Design Accelerator – We turn ideas into human profit. The project will carry out five acceleration rounds, divided into the following tracks:

- **B2B/B2A** and Investor tracks, conducted in a total of two application periods (round 1 and round 2).
- **“Go Global”** (round 3 and round 4).
- **“Poland Prize”** (round 5).

The program will qualify 40 startups, with at least 34 expected to successfully complete the acceleration process. Concordia Design’s goal is to provide effective support to Polish and foreign startups, primarily in the fields of social impact, Industry 4.0, and e-commerce, during their adaptation and commercialization phases. The program ensures high effectiveness through active collaboration with the public, scientific, financial, and business sectors. The applicant also plans to support companies in their foreign expansion by leveraging an extensive international network. It is assumed that 40 startups will be qualified for the program and sign grant agreements, and that 85% of them will successfully complete the acceleration.

- Project value: PLN 18,339,709.48
- Amount of European Funds contribution: PLN 17,652,907.58
