Conclusion: All participant except one applied after the e-CCA for a Job/Internship

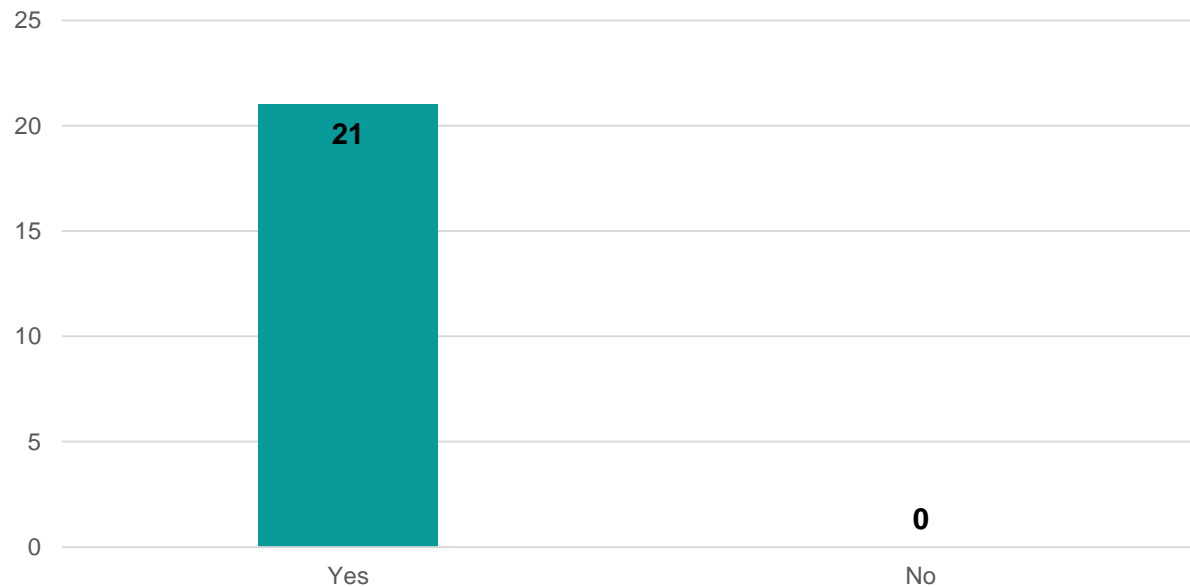

*Decided to study further

2. HAS THE MATERIAL, COACHING AND MENTORING PROVIDED DURING THE E-CCA HELPED YOU FOR THE APPLICATION PROCESS?

Conclusion: All participants who applied for a job found the material, coaching and mentoring provided during the e-CCA helpful

n = 21

2. HAS THE MATERIAL, COACHING AND MENTORING PROVIDED DURING THE E-CCA HELPED YOU FOR THE APPLICATION PROCESS?

I was able to get two part time jobs last year (2022). I was hired by one of the top hospitals here as an Electronic Medical Record (EMR) Support Staff assigned in the operating room. It only ended 3 months because my contract was project-based. While the other one is as a virtual assistant, the part time job based in Estonia and/or New York, USA that I got thru LinkedIn and until today, I am still working with them.

Yes, it helped me improve my resume and LinkedIn account. It also reminded me of how to research the industry.

All of these things aided me in applying for an internship position: the resume, cover letter, and do's and don'ts during the interview. The ate's and kuya's experiences were also beneficial.

Definitely, e-CCA has impacted my professional career. I became more open to offers of jobs/internships that are out of my field of study.

The Resume/LinkedIn making helped a lot!

The materials helped me in applying for internships and for future work

Yes. From the lessons that I got from the mentoring I prepared my resume to match the job description and also got to prepare for the interview well.

How to make a cv and answer interview questions

My CV looks Perfect Now 👍

It helped me on the key words to include in a resume so as it matches the job description. I also learnt how to market myself to potential employers.

The academy helped me a lot . I upgraded my CV and improved on my answering techniques during an interview.

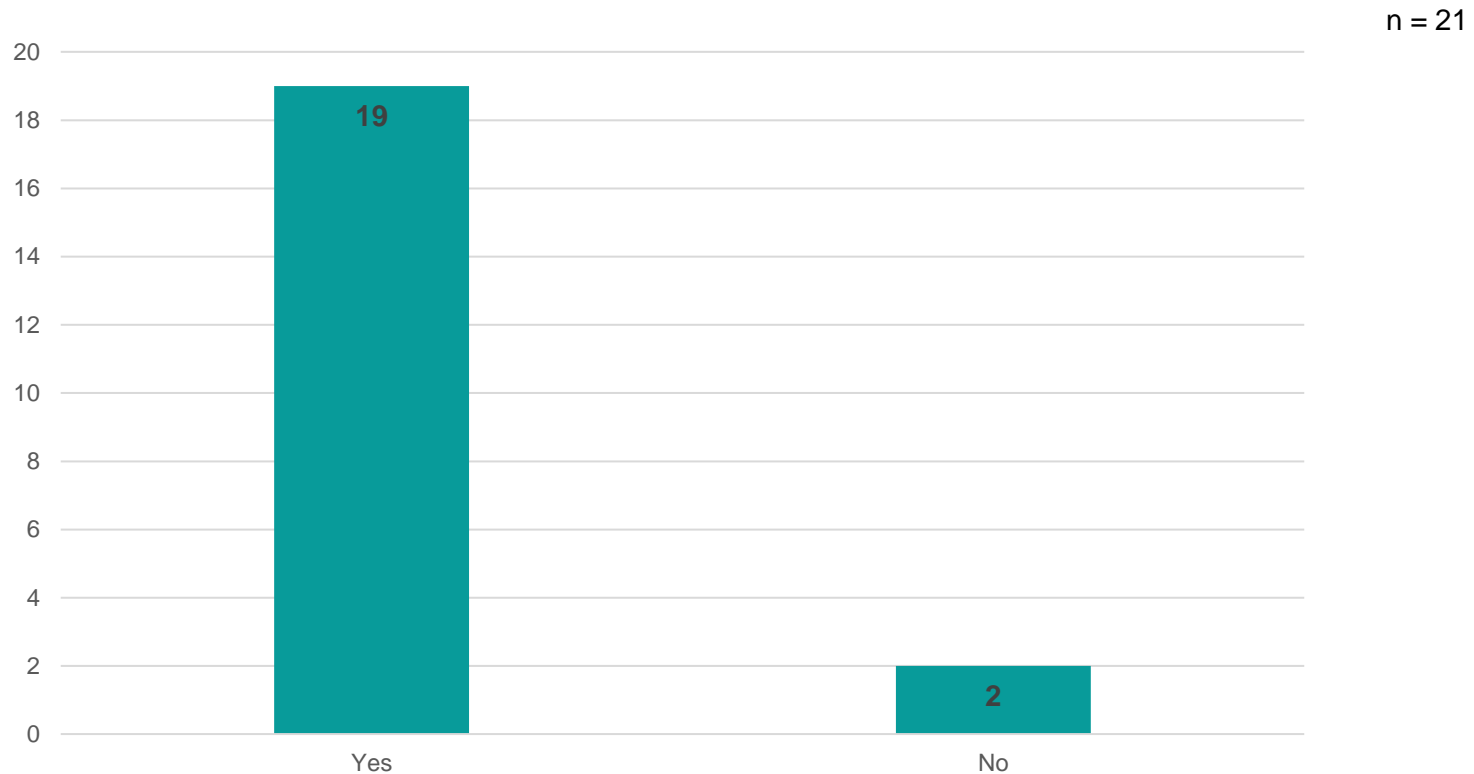

The material helped me gain confidence and courage for interviews.

I obtained skills and tips to manoeuvre and survive in the competitive corporate world. Kudos to the Graduate book by Edna Samba for the interview tips , it made me feel acquainted in first time experience.

It has helped a lot from knowing how to put myself out there, getting a job and how to behave in the corporate world.

3. DID YOU GET INVITED TO AN INTERVIEW?

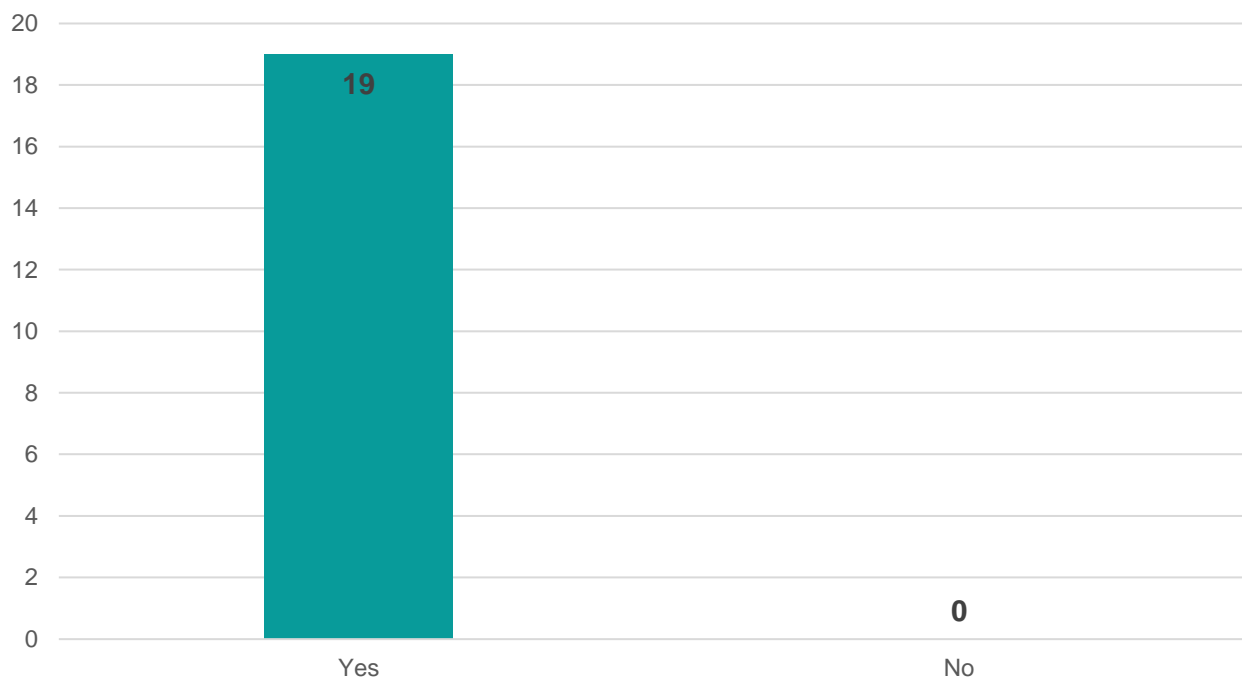

Conclusion: Except two everyone got invited to an interview.

4. DID YOU FEEL WELL-PREPARED FOR THE INTERVIEW WITH THE MATERIAL, COACHING AND MENTORING FROM THE E-CCA?

Conclusion: Everyone felt well prepared for the interview with the material, coaching and mentoring from the e-CCA

n = 19

4. DID YOU FEEL WELL-PREPARED FOR THE INTERVIEW WITH THE MATERIAL, COACHING AND MENTORING FROM THE E-CCA?

I was confident with my replies, i know what to say when asked different questions

One major thing that I learnt is how to approach interviews and this has helped cut the nervousness.

I prepared my CV early before the interview and revised on the possible asked questions.

Through the knowledge in job application, we were exposed to career fair and came across job opportunities platform like brighter Monday where I've applied for several jobs after creating my account with them and last month I was invited to an interview by one of the employers . I had a great time during the interview as well as the feedback but due to unavoidable circumstances (other opportunities) I didn't take it up .

I felt confident and eager to showcase my skills.

Yeah. I was confident while approaching the interview knowing that I was well prepared.

I used the resume format from the eCCA for both of my part time jobs. And I will still use it when my internship to my face to face hospital next school year. At least I am prepared one year ahead already.

While for the interview, it really helped me a lot especially on my online hiring in Virtual Assistant thru LinkedIn since my employer is based at Estonia. Plus, since I was chosen to do the blog, that was the key point and my pathway to got hired because my employer was looking for my writing style.

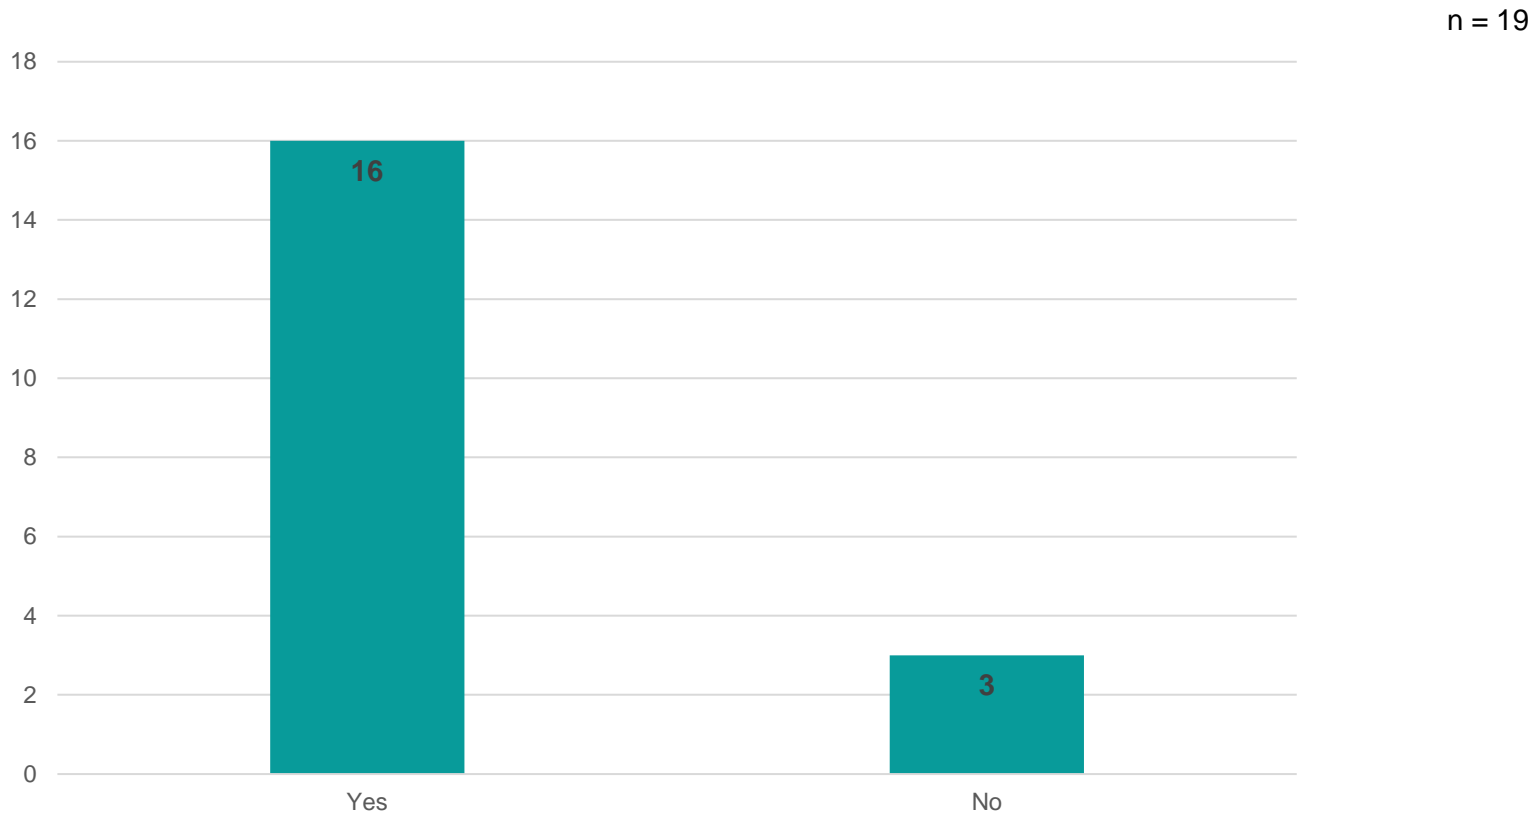

Yes! :) The eCCA experience helped me prepare and also boost my confidence when presenting myself.

Yes, I was able to prepare for the job interview with the help of e-CCA. The job interview/career fair simulation that we had was instrumental in my preparation for my real job interview.

I was able to prepare beforehand some possible questions the interviewee might ask, and then also listed few questions about the position

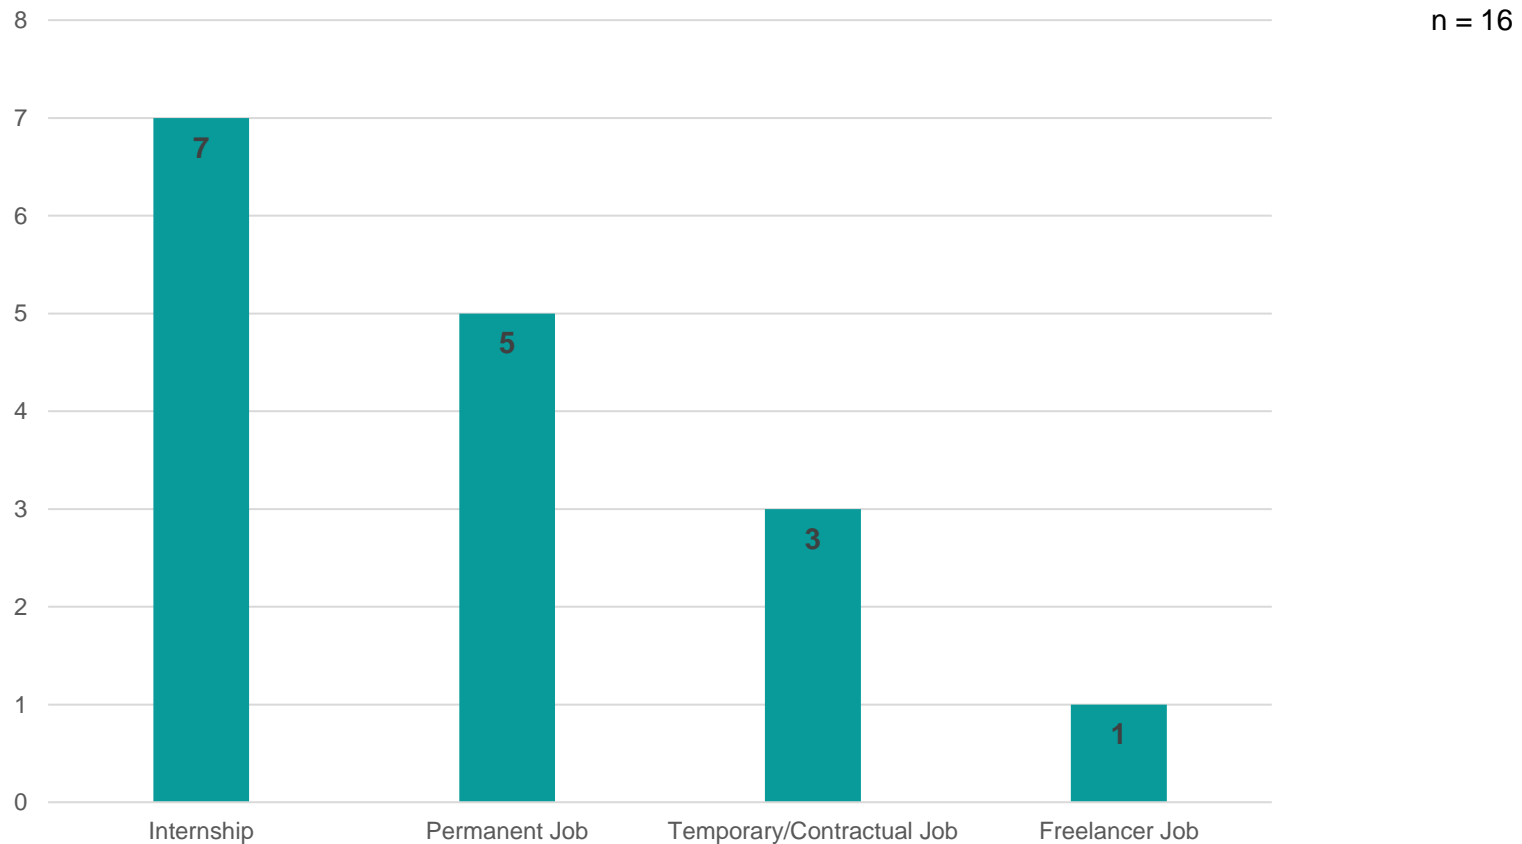

5. DID YOU GET A JOB OFFER AFTER AN INTERVIEW?

Conclusion: 16 out of 19 got a job offer after an interview.

6. WHAT KIND OF JOB WAS IT?

Conclusion: 7 out of 16 received a job offer for an internship. 5 received an offer for a permanent job

6. ANY FINAL COMMENTS FOR US OR YOUR MENTORS?

I am very thankful and grateful to everyone! Even though I got 2 part time jobs at the same time last year, it was really helpful for me not only financially, but also on making my personal goals and building some stepping stones to my dream. My experience in eCCA really helped me a lot to show my true intentions to the employers that I met and interviewed me. I know I am still distant to my goals and dream, however, I am already far away also from my starting point. Thank you for being there with me when I need someone to support me on getting part time jobs. Just wanna say, too that your mentoring was all worth it. I miss you all! :)

Again, thank you to all of our mentors for sharing your experiences and expertise! I am really grateful for the guidance during the academy <3

Thank you so much to all of you. The mentors, special guests, the staff & organizers of the event back then. Also, special thanks to my mentor, Kuya Ivan!

The e-CCA was instrumental in developing my professional career. It opened a lot of opportunities for me, both in terms of job and internship opportunities. Rock on, e-CCA!

Also, big props to all the mentors that were phenomenal, especially to Brett that has been a wonderful mentor for me even AFTER e-CCA ended.

I hope to see you again at the next Career Fair! Stay healthy!

The tips and advices were indeed helpful for me!

Thank you so much for sharing you knowledge with us :)

They're amazing, we somewhat still connected to each other.

The mentors' feedback really helped me improve my answers in the actual interview I had. I was easily got hired and one contributing factor is my linkedin profile as I was first contacted by HR through it. It is great to prepare building the profile and resume during the last 2 years in college.

Thank you for mentoring us!

6. ANY FINAL COMMENTS FOR US OR YOUR MENTORS?

I would like to thank you for your help. I am attending the final interview for the job and I hope to get it

Create more opportunities for other young people to benefit.
You can also consider giving us life long Mentors

The eCCA is a very beneficial programme. Thank you for the opportunity and hope the programme will continue for many years to come.

You did a good job during last year's academy and I can personally say it has been of great help to me .Getting invited for interviews is an achievement to me .

I appreciate the help and support. I'm also looking forward to the VCF as I believe it will provide a array of opportunities for me.

I'm grateful for the academy...I learnt alot and I don't take it for granted.

This is a very good and resourceful program that is usually very expensive out there. Thank you.

I'm a grateful graduate of the corporate career academy ,it came in handy as we were due to graduate from university. Thank you aiducation family, members, sponsors ,planners and executors for coming up with a masterpiece facilitation for the beneficiaries. Looking forward to partnering with you to give back to the community and empower upcoming generations as we develop better versions of ourselves. I've been on a one-month contract thus didn't get to take part in this survey ,but I'm grateful to share my feedback with the team. Thank you all

My immense gratitude to everyone who who made the academy a success. It greatly impacted my life.

I want to express my heartfelt appreciation and thanks to all the mentors and organizers, particularly Maya and Eli, for this exceptional program. I hope the program will continue so that more Aidutalents can benefit from it. Many thanks.

Thank you for taking your time to empower us
