Welcome & About this Page 🍷

I'm Vanessa Raath, aka The Talent Hunter. I've trained 8,000+ recruiters across 100+ countries, and I'm still in the trenches doing this work every week.

I've spent **countless hours** testing AI tools so you don't have to. Every tool on this page has been tried, tested, and used in real recruitment workflows. Not just reviewed. Actually used.

Whether you're sourcing better candidates, writing faster, building your brand, or just **trying to reclaim a few hours in your day**, there's something here that works.

★ Bookmark this page. I update it regularly as I test new tools, and yes, some of them have broken on me along the way. You'll want to know when that happens.

Will Generative AI replace Talent Sourcers & Recruiters?

Yes, but only the mediocre / bad ones. The good ones will use AI as a tool to elevate their game
