UNIVERSITY OF SCIENCE AND TECHNOLOGY YEMEN

The University of Science and Technology Yemen (USTY) was founded in 1994 as a non-profit private university. For several years, it was the best private university in Yemen.
Through careful academic planning it has become a leading provider of higher education in Yemen, standing head-to-head even with major public universities.
The university includes seven faculties and three deanships.
It has a modern teaching hospital providing medical care to the public.

Objectives:

- Enhance student knowledge and skills in various academic disciplines.
- Contribute to support efforts of practical and scientific research in different areas.
- Link the learning outcomes with the requirements of the labor market to ensure the graduates are employable.
- Provide the necessary infrastructure for the support of the learning process and students' services and activities.
- Ensure opportunities for education in separate locations for male and female students.
- Expand the partnerships and develop the relationships with other reputable universities and institutions of scientific research domestically, regionally, and internationally.
- Enhance the role of the university in the community service by providing excellent training and consultative programs in various aspects of development.

VISION & MISSION

Our Vision is to be one of the leading universities in selected disciplines, regionally and internationally. The mission of the university is to provide distinct educational, research and advisory services at the domestic, regional, and international levels, while adhering to social accountability through highly qualified manpower, sophisticated curricula, a conducive learning and stimulating technological environment for innovation and effective partnerships that contribute to the development of efficient outcomes that satisfy the needs of the labor market in accordance with the quality regulations and standards and academic accreditation.
