

Call For Papers 2022

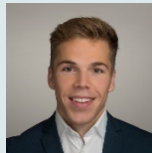

Challenges and Opportunities: The Future of DeFi in Traditional Finance

Submission:

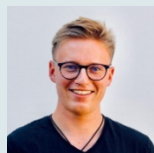

Please submit Abstracts to
tilmar.goos@cryptovalley.swiss
no later than 16th July 2022.

Tilmar W. Goos

Aurelio Schmid

Luis Schaubhut

Description

The Crypto Valley Association Working Group Education cordially invites interested author(s) to submit research papers for its 2022 Research Review carded for 30 September 2022.

Similar to several industries, the traditional financial industry has been adversely impacted by the COVID-19 pandemic. The pandemic has highlighted the fragility of regional but also international economies and, more importantly, accelerated the digitalization in every aspect. Especially since the publication of the Bitcoin Whitepaper there is an urgent need to accelerate structural transformation and business resilience across the traditional financial industry. Greater digitalization and the ever-expanding DeFi industry clearly require the need for adaptation by the traditional financial industry are some of the most compelling policy considerations that can improve the trajectory of the recovery and resilience of the traditional financial industry.

Topics for the Call-For-Papers:

We welcome research submissions on topics related to the Call-For-Paper theme "Challenges and Opportunities: "The Future of DeFi in traditional finance". We are interested in both qualitative and quantitative studies that employ relevant methods of analysis and the presentation of research findings.

The Call-For-Papers 2022 sub-themes are as following:

- (1) Recalibrating monetary policy for the growing digital currencies
- (2) The intersection of technology and banking. Lessons to be learned for banks and financial intermediaries
- (3) Decentralized Autonomous Organizations (DAO) a new frontier of financial supervision
- (4) Economic growth through digital transformation
- (5) Blockchain and the future of public finance (CBDC & Stablecoins)

Why Participate?

The best research papers will be compiled into CVA Call-For-Papers Vol. 1 which will then be distributed to all the CVA Members. Additionally, the selected Author(s) receive a free one-year membership at the Crypto Valley Association through which you can widen your professional network. The best 5 author(s) will have the opportunity to present their research at a CVA Virtual Event later this year planned on 30th September 2022.

Additionally, the three best author(s) receive a gratis entrance ticket for the Immersive Education Summit Lucerne 6-8 October 2022 where they have the possibility to present their research findings.

The iED is an academic and technical conference, which is open to the public, will feature cutting-edge technology and research from around the world along with related hands-on exhibits, tools, techniques, standards and best practices. The 3 author(s) get the opportunity to present their research findings.

Submission Guidelines:

The official announcement of the Call-For-Papers 2022 takes place on the 2nd of June 2022. Please submit abstracts to the Call-For-Papers at tilmar.goos@cryptovalley.swiss by 16th July 2022. Authors would be informed of acceptance by 30th July 2022. Completed research papers and the name of the presenter(s) should be sent to the above-mentioned email address not later than 30th August 2022. The virtual event will take place on 30th September 2022.

Scoring Domains:

All proposals will be scored by the Editor Committee on the following 7 items. We will then accept the top-ranking proposals in each category.

- (1) Content - Is this content geared and appropriately sophisticated?
- (2) Experience - Is this author(s) experienced not only in their material?
- (3) Wide Appeal - Does this subject matter have wide appeal and application?
- (4) Scholarly - Is the presentation grounded in scholarly research or other sources of authority. Scholarly research is defined as cited to or derived directly from definitive advanced, degree-seeking study.
- (5) Timely – Does the research address issues that are timely and have relevance in the field?
- (6) Concise – Is the paper concise (not too broad)? Does the abstract make the presentation appear too broad or that the presenter is going off topic?
- (7) Professional - Is the research paper professionally written (no typos, spelling or grammatical errors)?

Editor Committee:**Tilmar W. Goos, LL.M,**

a Ph.D researcher specialization into accounting where he focuses on accounting, accountability in Big Data management, Digital Ethics and the role of blockchain technology. His research is facilitated by the University of Minho, where he collaborates with Prof. Dr. Carlos Menezes. Tilmars professional experience ranges from business, IT, tax and legal consultation but also to the work with several renowned blockchain and crypto projects such as Cardano Foundation, SEBA Bank, its SEBAversity and most recently Bank Frick in Liechtenstein.

Tilmar is the author of the “Banking Bitcoins Taxation Handbook — The Handbook of International Money Management and Digital Assets” bbthandbook.com, the only book you can purchase with fiat and cryptocurrencies. He voluntarily Chairs the Crypto Valley Association Working Group Education and initiated this Call-For-Papers.

About Crypto Valley Association

The Crypto Valley Association is an independent, government-supported association established to take full advantage of Switzerland's strengths to build the world's leading blockchain and cryptographic technologies ecosystem with over 8000+ members. We support and connect startups and established enterprises through policy recommendations, projects across verticals, initiating and enabling research, and organizing conferences, hackathons, and other industry events. With active connections to similar hubs around the world, we also ensure Crypto Valley's participation in the global efforts to foster blockchain and cryptographic technology innovation.

About the Working Group Education

The Crypto Valley Association Working Group Education is committed to an open and inclusive planning process. Direct input and participation of our community and industry stakeholders is a critical component for the creation of a successful working group.

More information see the Crypto Valley Association Website. <https://cryptovalley.swiss/>
